Tony Scherman's *Chasing Napoleon* presents a remarkable tour de force: a cycle of monumentally scaled portraits of Napoleon Bonaparte, each of which depicts Napoleon at a psychologically charged, life-determining juncture. Confronting the challenge of producing an accurate likeness of an historical figure whose reign preceded the age of photography, Scherman metaphorically chronicles the life of Napoleon using only the image of his face. Battlefield genius, despotic emperor, megalomaniac conqueror, derided hero - each of these incarnations of Napoleon flickers through Scherman's paintings, invoking the flash of charisma as quickly as this is complicated by dark and conflicting undertones. The book contains three texts: Jacques Henric provides a dynamic account of the cultural and historical importance of Scherman's work and the frame of reference from which it springs. Hans Belting and David Moos discuss the specific project and the execution of the Napoleon series, and an interview with Stanford Kwinter and Bruce Mau illuminates the artist's motivation, practice, and concerns.
