Cell and Molecular Biology Gerald Karp

The Seventh Edition of *Cell and Molecular Biology: Concepts and Experiments, Binder Ready Version* connects experimental material to key concepts of Cell Biology. The text offers streamlined information that reinforces a connection of key concepts to experimentation. Through the use of paired art and new science illustrations; readers benefit from a visual representation of experimental connections. Animations and video clips are tied to key illustrations with practice questions to provide a variety of ways to experience a key concept. The new 7th edition offers an appropriate balance of concepts and experimentation. Experimental detail is offered when it helps to reinforce the concept being explained. This text is an unbound, binder-ready version.
