Sacred Voyager Jr. James William Stanfield

"Each person is a sacred voyager, on a journey we define each moment, with origin and destination shrouded in mystery; yet, bravely, with determination, we venture forth, knowing only the path we create, step by step." At times sensitive and penetrating, astute and aware, candid and considerate, revealing and informing, contemplative and reflective, the author uses poetry and prose to share thoughts and perspectives about life and living, God and reality, growing and maturing, survival, parents and parenting, personal relationships, life's meaning and purpose. Much of what is written will resonate with the reader's life experiences, while also offering both new and unique perspectives for what it means to be human, yet being something much more than just human. The reader will discover that they will return again and again to read selected poems and prose, for use during quiet and meditative periods of their day, for use as starting points for development and formation of their own rich discoveries about their life, their reality, and their special meaning and purpose. Go back to the beginning of this book description and again read the author's brief prose about who we are - sacred voyagers - because I believe you will agree with what was said. You will cherish this little book as part of your favorite collection of poetry and prose. Welcome and let us together continue our sacred voyage.
