Performance Testing with JMeter - Second Edition

Bayo Erinle

Performance Testing with JMeter - Second Edition Bayo Erinle
Test web applications using Apache JMeter with practical, hands-on examples

About This Book

- Create realistic and maintainable scripts for web applications
- Effectively use various JMeter components to achieve testing goals
- Leverage the cloud for distributed testing

Who This Book Is For

This book is great for developers, quality assurance engineers, testers, and test managers new to Apache JMeter, or those who are looking to get a good grounding in how to effectively use and become proficient with JMeter. No prior testing experience is required.

What You Will Learn

- Set up and prepare Apache JMeter for testing
- Record test scenarios or create them from scratch
- Test RESTful web services
- Effectively monitor resources during performance tests
- Build realistic, comprehensive, and maintainable test plans
- Understand distributed testing using Vagrant, AWS, Flood.io, and BlazeMeter
- Extend JMeter functionality through plugins
- Understand and effectively use JMeter components to achieve testing needs

In Detail

This book is a practical, hands-on guide that equips you with all the essential skills needed to effectively use JMeter to test web applications using a number of clear, step-by-step recipes.

The book starts with the basics of performance testing and teaches you how to go about recording your first test. The book then focuses on distributed testing, teaching you how to configure master and slave nodes as well as leverage the cloud and launch AWS instances. The book ends with some tips and best practices with regard to performance testing such as how to use the debug sampler, H2 database, dummy sampler, and MongoDB sampler, among others.

By the end of the book, you will have learned how to take full advantage of the real power behind Apache JMeter, quickly taking you from a novice to an expert.

From reader reviews:

Amy Sims:

Book is definitely written, printed, or outlined for everything. You can understand everything you want by a reserve. Book has a different type. We all know that that book is important thing to bring us around the world. Next to that you can your reading proficiency was fluently. A reserve Performance Testing with JMeter - Second Edition will make you to possibly be smarter. You can feel a lot more confidence if you can know about anything. But some of you think in which open or reading some sort of book make you bored. It is not necessarily make you fun. Why they might be thought like that? Have you trying to find best book or suitable book with you?

Houston Boynton:

What do you about book? It is not important along? Or just adding material when you require something to explain what your own problem? How about your extra time? Or are you busy particular person? If you don't have spare time to try and do others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? Everybody has many questions above. They need to answer that question because just their can do this. It said that about publication. Book is familiar in each person. Yes, it is correct. Because start from on jardín de infancia until university need this Performance Testing with JMeter - Second Edition to read.

Hoyt Adkins:

Beside this Performance Testing with JMeter - Second Edition in your phone, it may give you a way to get more close to the new knowledge or facts. The information and the knowledge you can got here is fresh from your oven so don't become worry if you feel like an old people live in narrow community. It is good thing to have Performance Testing with JMeter - Second Edition because this book offers for you readable information. Do you occasionally have book but you rarely get what it's about. Oh come on, that would not happen if you have this with your hand. The Enjoyable set up here cannot be questionable, including treasuring beautiful island. So do you still want to miss the item? Find this book as well as read it from at this point!

Colleen Edwards:

As a college student exactly feel bored to reading. If their teacher expected them to go to the library or make summary for some book, they are complained. Just tiny students that has reading's heart or real their passion. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that reading through is not important, boring and can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Performance Testing with JMeter - Second Edition can make you sense more interested to read.
