Hardanger Art Needle Work (Classic Reprint) Clara E. Bye

It has been the endeavor of the author of this little work to so explain each and every step of Hardanger art needlework, that it may readily be learned by the most inexperienced. The object has been to give with every illustration a complete instruction (on opposite page from cut) for working out the different designs. By studying the general information and closely following the instructions given with each pattern the author is confident, that an earnest worker will have no difficulty in mastering the art in a comparatively short time. Believing that it may be of interest to my readers to know how this most artistic lace or embroidery originated I will here give a short account of it. Hardanger is a county in Norway, (Europe), by the way one of the most beautiful spots in the scenic Norway. It is the women of this place that are the originators of this handsome art work, and it has gained for them a renown that has spread all over Europe and I confidently believe it to be only a matter of a short time, before it will be known in every art loving home in America. The embroidery is both durable and beautiful, and not so very difficult to learn for an earnest worker, so for these reasons, it will and must become popular.
