In this stunning book, four accomplished writers and lifelong conservationists team up with keen-eyed photographers to capture the compelling history, beauty, and recreational value of Missouri's unique state park system, one that has been ranked among the top four in the nation. The book features hundreds of photographs and includes information on all 88 state parks and historic sites, including the longest developed rails-to-trail project in the nation, homes of famous Missourians, Civil War battlefields, and other reminders of the past such as mills and covered bridges. The authors tell the complete story of the park system, from its inception in 1917 to the newest state park created in 2015, encompassing much of Missouri's history as well as its scenic and varied landscape.
