This insightful study, now completely revised and in its second edition, examines the pattern of politics that has emerged in South Africa under the Mandela and Mbeki administrations. In considering the changes brought about in power relations in the country since 1994, the book looks at, among other things, the shape of regional and local politics; land reform; the Truth and Reconciliation Commission; and the extent of political corruption. Further chapters consider the future prospects of South African democracy and provide assessments of both Nelson Mandela and his successor as President, Thabo Mbeki. This well-informed and crisply written introduction will appeal to both students of contemporary politics and general readers interested in the new democracy. North America: Indiana U Press; South Africa: David Philip(NAB)
