The Newer Atlantis: A Political Fantasia Thomas J. Quaine

In the year 2059, the Bensalem Club is founded by a group of visionary scientists, businesspeople, philosophers, and artists. Its members, who call themselves "New Atlanteans," have as their stated aim the creation of a new civilization that will supplant the old; a "Newer Atlantis," latest incarnation of that ideal human society first envisioned by Plato. It is a society that will be at once the consummation of human cultural evolution, and the chrysalis for its metamorphosis into something vastly different. And they create this civilization, with the resources of ingenuity and an almost boundless wealth -- they create it on a desolate, frigid group of islands in the Southern Ocean. This book contains the history of their experiment. It records their aspirations, their plans, their failures and triumphs, setbacks and breakthroughs, victories and defeats; it is, in short, the record of a strange group of dedicated men and women striving to sculpt a new civilization and, perhaps, a new species, from the unpromising clay of the human mind and body. There are no heroes here, no villains, no love interest, no dragons to slay, nor damsels to rescue -- its protagonists are the human spirit and the unfettered mind, its antagonists the forces of ignorance and barbarism. It is a fantasy, a utopia, and a rumination -- it is, above all, a thought-experiment.
