Tracking is a much-loved yet difficult subject that attracts at least some of the attention of almost every bush-goer who ventures into the wild places of southern Africa. The ability to accurately read difficult, partial, or little-seen signs left in the soil or sand is rare and largely the domain of professionals. However, by making use of this comprehensive guide, anyone who applies him- or herself can begin to decipher these natural hieroglyphs etched on the ground. In this volume, highly accurate sketches of animal tracks are combined with a wide selection of extremely varied photographs that provide an all-round impression of the signs the animals may leave behind. This field guide to mammal tracks and signs also serves as an ID guide to the mammals of southern Africa as full color photographs of each animal are included.
