## Jacques Derrida: Basic Writings

One of the most influential and controversial thinkers of the twentieth-century, Jacques Derrida's ideas on deconstruction have had a lasting impact on philosophy, literature and cultural studies.

*Jacques Derrida: Basic Writings* is the first anthology to present his most important philosophical writings and is an indispensable resource for all students and readers of his work. Barry Stocker's clear and helpful introductions set each reading in context, making the volume an ideal companion for those coming to Derrida's writings for the first time. The selections themselves range from his most infamous works including *Speech and Phenomena* and *Writing and Difference* to lesser known discussion on aesthetics, ethics and politics.
