Endoscopic Gynecologic Surgery (Bilingual/Eurobooks)

This colour atlas gives an introduction to endoscopic surgery in gynaecology. Hysteroscopic and laparoscopic indications and contraindications of minimally invasive gynecologic surgery are systematically named and clearly differentiated. Each operative procedure is described in detail accompanied by endoscopic colour pictures and explanatory schematic drawings. This bilingual edition has the advantage of giving the English terminology next to the correct German nomenclature, thus alleviating the interpretation of international reports and literature.
