The Museum of Broadcast Communications Encyclopedia of Radio

The Museum of Broadcast Communications Encyclopedia of Radio

Produced in association with the Museum of Broadcast Communications in Chicago, the *Encyclopedia of Radio* includes more than 600 entries covering major countries and regions of the world as well as specific programs and people, networks and organizations, regulation and policies, audience research, and radio's technology. This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old, with essays that provide essential information on the subject as well as comment on the significance of the particular person, organization, or topic being examined.
