Ecology, Community and Lifestyle: Outline of an Ecosophy

Arne Naess

Ecology, Community and Lifestyle: Outline of an Ecosophy Arne Naess

The basic thesis of the work is that environmental problems are only to be solved by people - people who will be required to make value judgements in conflicts that go beyond narrowly conceived human concerns. Thus people require not only an ethical system, but a way of conceiving the world and themselves such that the intrinsic value of life and nature is obvious, a system based on 'deep ecological principles'. The book encourages readers to identify their own series of such parameters - their own ecosophies. Ecology, Community and Lifestyle will appeal to philosophers, specialists working on environmental issues, and the more general reader who is interested in learning some of the foundational ideas of the rapidly expanding field of environmental philosophy.
