A Logical Introduction

Bradley Michael Griffiths II

A Logical Introduction Bradley Michael Griffiths II

An introductory text on formal logic and critical thinking for middle and high school students with review chapters and homework assignments. Ideal for private schools and home education. Covers the basics of logical thinking, proper formal logic and argumentation, informal logic and informal fallacies, as well as the much less common argument by analogy, induction, and the interaction of science and logic. The perfect start to the educational transition from childhood to adulthood. Serves as a preparation for the clear reasoning and analysis necessary for mock trial, forensics, literary analysis, philosophy, and the social and natural sciences.
