**Atlas of Liver Pathology (Atlases in Diagnostic Surgical Pathology)** Gary C. Kanel, Jacob Korula

Over 220 colour illustrations (and many more in black and white) enhance this excellent atlas and text providing a wide range of pathologic and clinical information involving the entire spectrum of liver disease. The chapters cover both major and minor morphologic features seen on needle or wedge biopsy of the liver, as well as differential diagnosis, special stains, and immunohistochemistry where appropriate. Clinical and biological behaviour is concisely discussed, followed by aspiration cytology, prognosis and treatment, references, and many pertinent photomicrographs of representative cases.
