Investigating the Human Body: Life Science (Science Readers) Connie Jankowski

Readers will learn about the way our body works to keep us moving and healthy in this stimulating book that features a variety of colorful, vivid images, easy-to-read text, a helpful glossary and index, and fascinating facts. This book will have readers captivated as they learn about the various systems in our bodies, including the digestive system, skeletal system, circulatory system, muscular system, endocrine system, and immune system. An engaging lab activity is featured to aid in further understanding of how our bodies help us in everyday activities!

About Shell Education

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
