Acing College; A Professor Tells Students How to Beat the System Joshua Halberstam

After reading many books about the college experience, I can honestly say that this book has been the most helpful to me. Halberstam concentrates on the academic aspect of college from a very helpful standpoint-- that of a professor. With his witty style of writing and excellent advice, Halberstam is a great motivator for new and returning students alike. He even devotes a chapter to adult students. This book is truly wonderful, I advise any student to read it thoroughly./best value/fast service
