The IRA and England

Heather Lehr Wagner

The IRA and England Heather Lehr Wagner

As the world inches closer and closer to becoming a truly global society, it becomes all the more important that each and every citizen understand the historical underpinnings of the world's most infamous regional disputes. This series explains the roots of such disputes by examining the history of the regions involved, and by presenting the major issues involved from each party's perspective. Each book encourages students to put themselves in the shoes of both parties, and probing questions challenge students to propose real-life solutions for settling these divisive situations. Examines the religious and political ideologies that kept these two groups at odds for so long.
